Compact, High Precision Pressure Transducer Model KPK

Description

The KOBOLD KPK Compact Pressure Transducer is designed to deliver high performance at an economical price. Utilizing either thin-film or piezoresistive technologies, the KPK series offers precision, shock resistance, and long term sensor stability. Noise immunity is assured by compliance with the IEC 801 standard (CE compliant). Installation is simplified by providing protection against common installation mistakes such as reverse polarity wiring, overvoltage and short circuiting. All KPK sensors undergo inspection and testing to assure a trouble-free installation.

Applications:

- Hydraulic and Pneumatic Systems
- Industrial Machinery and Machine Tools
- Injection Molding Machines
- Stamping and Forming Processes
- Pumps and Compressors
- Laboratory and Test Equipment
- HVAC Systems
- Refrigeration Equipment
- Petrochemical
