The New Generation of Level Indicators

LevALERT®
BRAND
**BIN LEVEL INDICATOR**

The Mechanics Are Simple:

As your bin material reaches the LevALERT® Indicator, it pushes against the rubber activator, turning the <u>color tube</u> from black to a bright yellow color. When material recedes it automatically darkens again… ready for the next fill!

SPRING TENSION ADJUSTMENT
15 TOTAL REVOLUTIONS

Rubber Activator
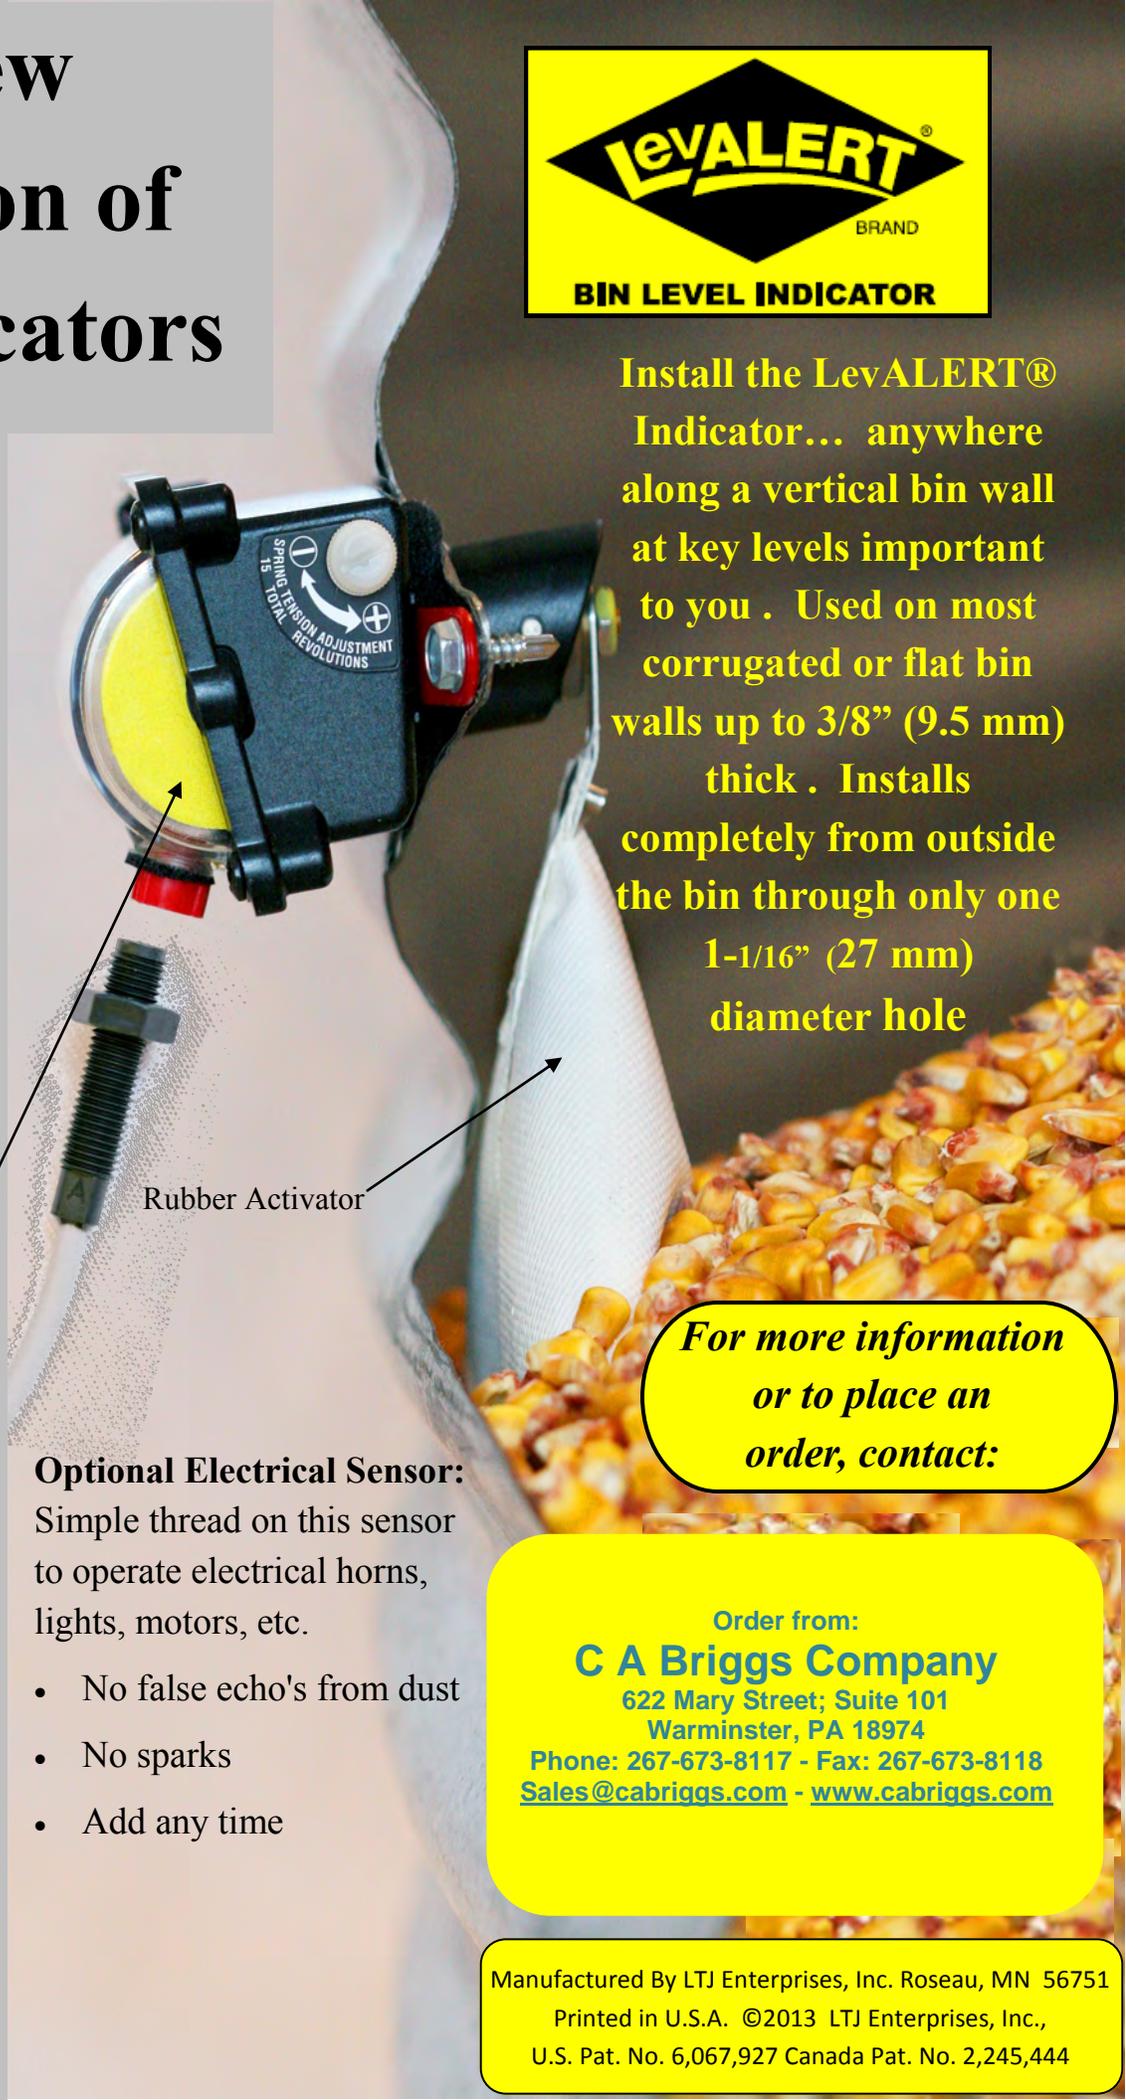

Install the LevALERT® Indicator… anywhere along a vertical bin wall at key levels important to you . Used on most corrugated or flat bin walls up to 3/8" (9.5 mm) thick . Installs completely from outside the bin through only one 1-1/16" (27 mm) diameter hole

For more information or to place an order, contact:

Monitoring bin levels has never been this easy

MADE IN THE USA

ALERT

This bin equipped with

LevALERT BRAND **BIN LEVEL INDICATOR**

BLACK is "OFF" (Deactivated)

YELLOW is "ON" (Activated)

Why Climb? SAFETY FIRST! Just look for the BLACK DIAMOND

In a glance, the LevALERT® Indicator shows you the level of material in your bin while you remain safely on the ground. Whether you fill your bins once a year or several times a day, LevALERT® saves you time, labor and money.
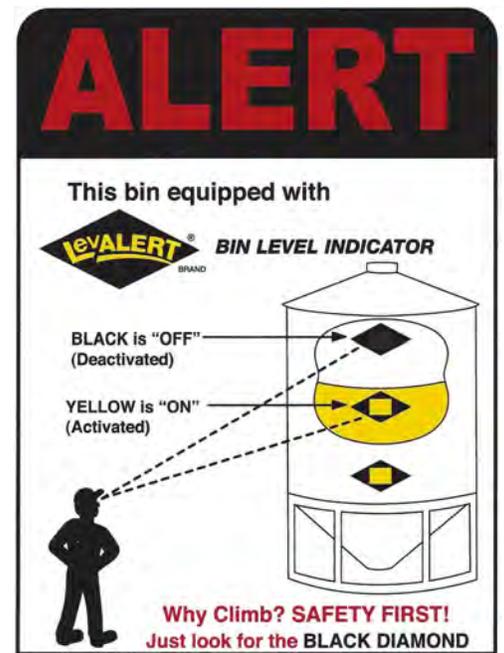

You asked for…..

Easy installation: Fully assembled and ready to install from *outside* your bin

High visibility: Can be easily seen from 200 feet, day or night

No electricity required: Completely mechanical

Adaptability: Easily accessorized with an optional electrical sensor to activate horns, lights, motors, etc.

Increased safety: Virtually eliminates the need to climb bins

A money saver: Greatly improves your operation by saving you time, wear and tear on equipment… and your body. You only need a second to check how full or, sometimes more importantly, how empty your bin is.
